PROFESSIONAL SUMMARY

Entry-level **Full Stack Web Developer (MERN Stack)** with hands-on experience in designing and developing responsive, scalable web applications using MongoDB, Express.js, React.js, and Node.js. Trained at Masai School with strong knowledge of **REST API** development, **JWT** authentication, **CRUD** operations, and **MVC** architecture. Skilled in building end-to-end full-stack projects including payment gateway integration and deployment. Actively seeking a fresher/full-time developer role to contribute to production-ready applications and grow within a collaborative engineering team.

TECHNICAL SKILLS

- **Frontend:** HTML5, CSS3, JavaScript (ES6+), React.js, Chakra UI, Tailwind CSS, Responsive Web Design
- **Backend:** Node.js, Express.js, REST API Development
- **Database:** MongoDB, Mongoose
- **Tools & Platforms:** Git, GitHub, Cloudinary, Vercel, Render, LocalStorage.
- **Concepts:** JWT Authentication, Authorization, CRUD Operations, MVC Architecture, API Integration, State Management

---

PROJECTS

E-commerce Web Application (MERN Stack)

Links: GitHub | Live Demo

Tech Stack: React.js, Node.js, Express.js, MongoDB, Tailwind CSS

Description: Developed a full-stack **E-commerce web application** implementing complete shopping workflow including product browsing, cart management, secure authentication, and online payment processing.

Key Features:

- Implemented product listing, search, filtering, and sorting with responsive UI.
- Integrated JWT-based authentication with protected routes and secure token session management.
- Built cart, wishlist, and order placement flow with address capture and persistent user data.
- Integrated Braintree payment gateway for secure online transactions and order processing.

🔹 Admin Panel Dashboard (MERN Stack)

Links: GitHub | Live Demo

Tech Stack: React.js, Node.js, Express.js, MongoDB, Chakra UI

Description: Developed a **secure Admin Dashboard** for managing products and users with role-based access and scalable backend APIs.

Key Features:

- Implemented JWT-based admin authentication with protected and role-based routes.
- Built product CRUD operations with Cloudinary image upload and storage integration.
- Added pagination, search, and data filtering for efficient data management.
- Designed a responsive dashboard UI using Chakra UI with mobile-first layout.

🔹 Lenskart Clone (Frontend)

Links: GitHub | Live Demo

Tech Stack: React.js, Chakra UI, JavaScript

Description: Developed a **responsive frontend clone of an e-commerce eyewear platform** focusing on UI/UX design, product browsing experience, and client-side state management.

Key Features:

- Implemented product listing with responsive grid layouts for multiple screen sizes.
- Built cart and wishlist functionality using React state management.
- Managed user session flow with LocalStorage persistence.
- Designed mobile-first, accessible UI components using Chakra UI.

EDUCATION

Full Stack Web Development Certification — Prepleaf by Masai School, (Online)

2023 – 2025

Bachelor of Engineering (B.E) — Dr. Babasaheb Ambedkar Marathwada University, Aurangabad

2017– 2023

SOFT SKILLS

Soft Skills: Problem Solving | Team Collaboration | Time Management | Adaptability | Communication
